

Nutraceutical R&D and QC Analytical Support ***Researching and Providing Solutions for the Future!***

Leading edge of technology: state-of-the-art instrumentation and automated systems

ADPEN is a leading R&D contract laboratory and has serviced the Nutraceutical industry as a Minority Woman Owned Business for over 20 years. Our staff of well trained professionals is experienced in QC, research and residue chemistry and is ready to help you get your toughest projects completed. We operate under FDA, EPA, OECD, FCC, WHO, GLP and cGMP guidelines. Our major clients are well-known companies throughout the world.

ADPEN is at the leading edge of technology utilizing the latest in instrumentation such as LC-MS/MS systems (AB Sciex 5500, 4000QT, API 4000, API 3000), HPLC systems (Agilent 1100 and 1200), and GC, GC/MS systems (Agilent 6890/5975). We also have the Dionex Accelerated Solvent Extraction (ASE) system and Bio-tek immunoassay systems.

The best quality analytical service available

ADPEN specializes in nutraceuticals, herbals, functional foods, nutritional products, beverages and raw materials:

- Pesticide residue screens
- Aristolochic acid analysis
- Analysis of fruit juices and other food products for adulteration, using FT-IR
- Analysis of sports enhancement products for Quality Control and adulteration
- LC/MS product fingerprinting
- Heavy metal analysis
- Method Development and Validation
- Dissolution and Disintegration Testing
- Microbiological Testing
- LC/MS and GC/MS tests to determine possible raw material or product contamination
