- MULTI-RESIDUE METHODS.
- ENVIRONMENTAL FATE.
- PRODUCT EQUIVALENCY.
- 5-BATCH ANALYSIS.

QUALITY AND EXCELLENCE JUST GOT BETTER.

## flexible solutions for your analytical needs

## The best **TECHNOLOGY** at work for you

CONNECTING TECHNOLOGY TO RESOURCES AND EXPERIENCE

A laboratory is only as good as the resources it makes available to its employees. At ADPEN, you need not worry because we have made a commitment to use only the best state-of-the-art technology to bring the analytical laboratory to the next level. ADPEN utilizes both the Agilent 6490 and the ABSciex 5500; the two most powerful triple quad LC-MS/MS instruments available on the market today.

Technology doesn't stop at instrumentation. ADPEN takes full advantage of the latest techniques and equipment to support the chemist in their efforts to provide our clients the most accurate and dependable data possible. From the precise delivery of our robotic liquid handlers to the custom LIMS software, technology is an important part of our laboratory. ADPEN puts the best **TECHNOLOGY** to work for you!

### GUIDELINES

- GLP
- cGMP
- FIFRA
- OCSSP
- OECD

### ACCREDITATION

- EPA & FDA Accepted Lab
- NELAC (Drinking Water)

### INSTRUMENTATION

- HPLC, LC-MS/MS
  - GC, GC/MS
  - Accelerated Solvent Extraction
- Immunoassay
